PROFILE

Passionate Full-Stack Web Developer trained at Moringa School, skilled in building dynamic and user-friendly applications using React.js, Python (Flask), and Tailwind CSS. Creative problem-solver with strong debugging and collaboration skills, blending analytical precision from an Industrial Chemistry background with a deep passion for technology.

WORK EXPERIENCE

Freelance Full-Stack Developer

- Designed and developed modern, responsive full-stack web applications for clients and startups.
- Delivered high-quality projects using React.js, Flask, SQLAlchemy, and Tailwind CSS.
- Collaborated on UI/UX design, backend logic, and database architecture.
- Debugged and optimized applications for performance and scalability.
- Worked with cross-functional teams to meet deadlines and achieve client satisfaction.

Key Projects

- Dikoras – Full-Stack Company Website** 2025
 - Developed a professional website for a law firm, integrating frontend and backend functionalities.
 - Implemented user authentication, admin dashboard, and content management system.
 - Ensured responsive, secure, and user-friendly design.
- Hospital appointment scheduling system** 2025
 - Developing a digital platform connecting doctors and patients through appointment scheduling.
 - Implemented patient data management, user authentication, and backend API architecture.
- Art Gallery & Marketplace**
 - Created a digital art gallery platform for showcasing and selling local art pieces.
 - Designed product display pages, payment integration (mock gateway), and artist profiles.
 - Supported local artists by improving their online visibility and accessibility.

EDUCATION

- Bachelor of Science** 2018-incomplete
Industrial Chemistry | Jomo Kenyatta University
- Software Engineering** 2025
Fullstack Web Development| Moringa School
